WIRED BRAIN

[Re]:Wired	Cortex Records	CD	13,50€
Après plusieurs "petites" productions, Wired Brain rentre enfin dans la cour des grands avec son premier véritable album, [Re]:Wired, qui est tout simplement impressionnant ! Impressionnant de par sa maturité et la maîtrise musicale. Chaque chanson est travaillée, réfléchie et jouée à la perfection. Chacune d'entre elles est un ensemble très complexe de samples en tout genre, de beats techno / électro et de gros sons de guitares. Le tout étant très entraînant, un tantinet martial, progressif et prenant. 12 titres au total, 12 compositions électro-indus absolument irréprochables, peaufinées et structurées à la perfection. (Whatsthatnoise 10/2002) - Les titres crossover et électro-indus s'enchaînent, et jamais l'ennui et la répétition ne viennent affubler l'écoute de ce CD. La ligne de conduite est claire, même limpide je dirais : rythme et kick carrés, additions de guitares "milleniennesques", univers sonore envoûtant et ambiance fin du monde. (AcessCode 10/2002) - [Re]:Wired accumule les ambiances claustrophobes, les guitares saignantes et les samples infernaux pour ne pas laisser une seconde à l'auditeur le choix de reprendre son souffle. Coincé sous une chape sonore d'une rare densité, malmené par des chausse-trappes tortueuses qui se glissent à peu près dans chaque titre, on ne peut que s'enfoncer toujours un peu plus, hagard, dans l'enfer personnel de Wired Brain. Et si le maître Reznor, souvent cité à l'égard de Wired Brain, réapparait ici de loin en loin, c'est surtout sous forme de titres clins d'œil "One step downward", "Nailed", et pas de figure tutélaire indépassable. Car avec [Re]:Wired, plus besoin d'avoir de complexes, cet album est bon, très bon, et le maxi qui l'accompagne (...) achève de le rendre totalement indispensable. (D-Side 7/2002)			
Replicant	Cortex Records	MCD	7,50€
Au programme du single tiré de l'excellent [Re]:Wired, la chanson "Replicant" (en version edit et accompagnée de 2 remixes), un autre titre issu de l'album ("Low edit") en version courte aussi et un titre inédit, "The Box". Un maxi réussi, présentant de l'électro-indus rythmée, martiale et percussive (Tribal mix by Omnicore), hypnotique et mécanique ("Replicant" Noisy mix feat. H.I.V.+), et limité à 333ex. numérotés
