**CONCRETE LUNG**

**Waste of Flesh** Armalyte **CD 12,50€**  
 Moving forward from the core electronica of their 'The Dawn Of X' debut, CONCRETE LUNG now wield a more brutal, more abrasive sound that bleeds forth across the more extreme ends musical spectrum. Incorporating elements of early PITCHSHIFTER, MINISTRY and SKINNY PUPPY, 'Waste of Flesh' sees the band combine their influences and spitting them back out as lethal shards of dissonance. From the tribal drums that build to a hypnotic crescendo on the title track to the guitar napalm of 'Breathe in the Monochrome' or the doom-grind that defines 'Pyre Burns', Concrete Lung seek to continually expand and refine their sound.

**Moments in Budapest** Alfa Matrix **DVD 29,50€**

FRONT 242's "Vintage Tour" concept was so well received across the globe that it is actually still running today... During the last couple of years, Belgium's very own pioneers of electronic music, FRONT 242, performed live in front of many thousands of fans, all impressed by the early electronic music atmosphere they bring on stage through these good old analogue sequences the band has reloaded to match the spirit of their time... FRONT 242 indeed comes

from a different time, when working with electronic music was difficult, the machines were hostile and humans needed to interact strongly with synthesizers to master their art - Music required discipline.

Since the early 80's, FRONT 242's ever-growing fanbase has always proven to be the 5th member of the band. A unique communion between fan and artist that has grown and matured over the course of 3 decades. An interactive relationship that has displayed its intensity during every "tour de force" live performance where the energy of the audience seamlessly unites with the energy of the band, together creating an incredible experience.

Patrick Codenys, Daniel B., Jean-Luc De Meyer and Richard Jonkheere again offer us another

treasure: their very first live Moments in the band's history in Budapest, Hungary filmed on December 6th 2008 by the amazing team of Steve's Black Head Agency. We invite you to discover this exceptional second official FRONT 242 live DVD immortalizing once more the legend and genius of FRONT 242.

81 minutes of live show plus some extra's including interviews & and a photo gallery...

This PAL format DVD (16:9 - Region free - age 6+) is initially released as a strictly limited

<b>ORANGE SECTOR</b> <b>Krieg &amp; Frieden</b> "Krieg & Frieden" is ORANGE SECTORs 8th studio album to date. The Hannover (Germany) based EBM force return with an album back to their true EBM roots in the vein of their albums "Faith" and "Flashback" (1993 + 1994, Zoth Ommog). "Krieg & Frieden" (War & Piece) is pure EBM with hard hitting sequencer lines and energetic drum programming. EBM at it's best comparable to early Nitzer Ebb and straight DAF. Tracks: 01 Angst 02 Krieg und Frieden 03 Endzeit 04 Verloren 05 I hate you 06 Das Gute ist das Böse daran 07 Feuerläufer 08 Kompass 09 Ein neues Kleid 10 Tribal.warfare 11 Angst (phobie.mix) 12 Ein neues Kleid (trag das kleid im club.mix)	Infacted	CD	15,50€

<b>PREMATURE EJACULATION</b> <b>Part 1 [1981]</b> Rozz Williams was just 17 years of age when he and Ron Athey formed P.E., a good 6 months before Christian Death entered the studio to record their first album. The 7 untitled tracks are primitive and raw, Rozz and Ron were heavily influenced by NON and Throbbing Gristle. It is almost impossible to listen to this 2CD and not make instant comparisons with Boyd Rice's debut offering, commonly known as The Black Album. Premature Ejaculation - (Part 1) and the bonus 'live' recording have both never been released before in any form.	Malaise M.	2CD	18,00€		
<b>Part 2 [1981]</b> Part 2 [1981] is a more interesting and well put-together recording than its predecessor. Although far from perfect, it is clear that Rozz was learning his art and developing techniques that he would continue to use throughout the rest of his career. It also incorporates the use of samples and there is some vocalisation and spoken word sequences. Contains bonus material from 1982 which are selections from various vinyl recordings. Power Electro Body. The French & Belgian EBM communities are quite tight and tend to stick to the "roots" of the Electronic Body Music sound. France's Void Kampf does exactly that, and keeps the "Body" in EBM, as any fan that attended a live performance can attest to. In March 2010, Void Kampf releases its powerful sound onto the world with the album, Severe Mais Juste. The album contains 14 original tracks and 6 remixes. Guest re-mixers include; Signal Aout 42, Darkmen, Steril, Autodafeh & K-Bereit. Over an hour of music, this album is sure to hit the dance floors hard with their clean, well produced electronics and aggressive vocals and a Void Kampf attitude.

 Réédition des très rares premiers enregistrements électro punk de Stephan Eicher (1980)

think GRAUZONE meet SUICIDE meet DAF

Ceci n'est pas un disque de variétés - Risque de ne pas convenir aux personnes souhaitant déjeuner en paix ! Issus d'une K7 tirée à 25 exemplaires en 1980, ces morceaux enregistrés à l'arrache sur un dictaphone et sur du matériel « volé », laissent déjà entrevoir le succès que Stephan Eicher et son frère connaîtront l'année suivante avec le projet GRAUZONE (remember leur hit «Eisbär»). Bref, synthés chétifs, chant habité et boîtes à rythme au supplice... découvrez le côté obscur d'Eicher !
